## DETAILED ACTION

### *Claim Objections*

1. Claims 1 and 10 are objected to because of the following informalities: in claim 1 line 4, we see "...at least one lamp monitor and control and generate...". In claim 10, line 4, we see "...transmitting a monitoring data to at least one random time..."

Appropriate correction is required.

### *Double Patenting*

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 1-10 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,604,062. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 1-10 are *anticipated* by claims 1-10 of the Patent. The correspondence between the claims of the pending application and that of the Patent is as follows: 1/1; 2/1; 3/2; 4/3; 5/4; 6/5; 7/6; 8/7; 9/8; 10/10. Note that with respect to the claimed "at least one random time to a prescribed receiver" of claim 10,

Art Unit: 2857

this is broadly but properly directly associated with the "without prompting from the receiver" of claim 10 of the Patent.

***Allowable Subject Matter***

4. Claims 11-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See the attached PTO-892.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick J Assouad whose telephone number is 571-272-2210. The examiner can normally be reached on Tuesday-Friday, 6:30am-5:00pm.
